

# PRINTING WITH DOUGH

By Caroline Rudge

You'll need...

Play dough in any colour

Textured shallow objects

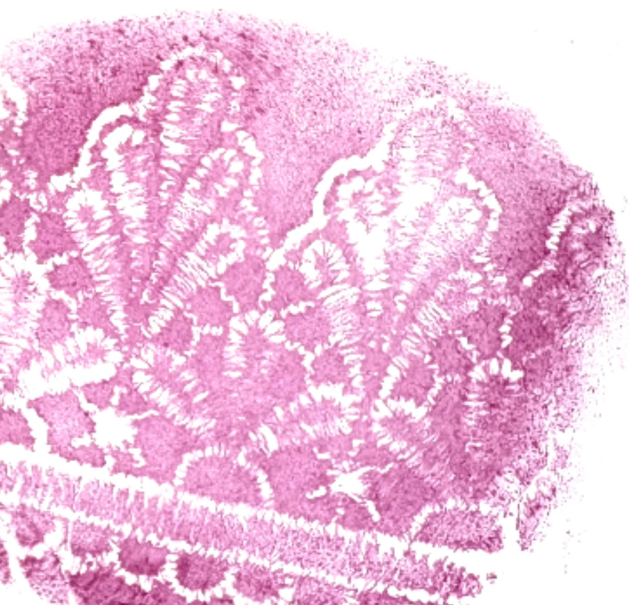

Ink pads and paper

Impress the object into the dough and then dab the ink pad onto the surface

Press the inked-up dough firmly onto your paper (but be careful not to squish it)

Try different textures, fabrics, keys, plants, beads, jewellery - make sure the impression isn't too deep or it won't pick up the ink.

Try different colours and overlays...

**HAVE FUN!**
